ACCESS TO DEMAT ACCOUNT THROUGH MOBILE PHONE

CDSL is pleased to inform the launch of a facility which allows BOs to access their demat account through a GPRS enabled mobile phone. GPRS is General Purpose Radio Service, a packet oriented mode of cellular data communication. After starting the web browser in the mobile phone, User has to type the URL as 'myeasi.com' to access the mobile facility. User is prompted to enter login id and password which is same as is used to access easi / easiest facility through the CDSL website.

After successful login a menu with following options are displayed.

- Portfolio valuation – Total portfolio valuation is displayed
- Balance for a selected ISIN – Free balance for the selected ISIN will be displayed
- Balance View – Free balance for all the ISIN in the account will be displayed
- Balance Transfer to a trusted account – On market / Normal payin / Early payin transfer to a trusted CM account (for easiest users)
- Easiest Transaction Inquiry – Transactions setup by the user up to generation of transaction id but not 'Confirmed' either through mobile phone or through website will be displayed and user can confirm the transactions for final execution. Such transactions can be confirmed till the cutoff time applicable to each type of transaction.

DPs are advised to inform the same to their BOs.
