EXTENDED TIME FOR DOWNLOADS

A STEP TOWARDS 24x7 CDSL SYSTEM AVAILABILITY

DPs are advised to refer to communiqué no. **CDSL/OPS/DP/1627** dated June 29, 2009 wherein CDSL had announced that the facility to **upload** transactions / account opening batches to the CDSL system – even while the EOD process is in progress (except during a one-hour exception window), was released on the live CDSL system.

CDSL is now pleased to announce that a similar facility is being provided to DPs for **downloading** reports from the system even while the EOD process is in progress (except during a one-hour exception window). This enhanced functionality will allow DPs to download default / request reports at any time (except during the one-hour exception window) instead of waiting till SOD of the next business date. However, reports generated during an ongoing EOD will be available only after that EOD is completed.

DPs are advised to note that the one-hour exception window from the start of EOD, is as follows:

- from 10:00 P.M. on weekdays, and
- from 9:00 P.M. on Saturdays, or
- at such a re-scheduled time as advised by CDSL;

DPs are advised to take note of the above and utilize this enhanced functionality to their advantage. The release of this functionality is scheduled for **Friday, August 14, 2009**.
