CDSL has already migrated components for SHA -2 Encryption as mentioned in the communiqué no. 2800. The users are requested to note that in case they observe any exception as in Para i during the initial operation (as one mentioned below), they are requested to follow the steps as mentioned in Para ii

Para 1

In case The Location of the Library is Blank and not selected by default as in the screen shot: please follow the steps mentioned below:

	cdslindia.com/verifytoken.jsp	ې 🚽 🤉	👌 🗙 🧉 Verify E-token	×
File Edit View Favori	tes Tools Help			
Select Your Device Type		<u> </u>		
Select Device Type:	Rainbow iKey Token			
Location of Library File:		Browse		
	OK Cancel			
Warning				
	Unable to find the default library file. Ensure that the token drivers are installe	ed.		
	UN			

Para ii

The users are requested to check the following before committing the transaction / Upload:

- Go To \rightarrow system 32 folder and check whether dkck201.dll is present.
- If this file is not there that means users driver installation is incorrect,

In this case follow the steps:

- Go to \rightarrow control panel \rightarrow Add remove program
- Select safenet driver and remove/ uninstall it.
- Restart the machine.
- Download and Install the new driver from help.html

- While installation select BSec mode
- After successful installation restart the machine.
- Go To help and verify Token
