For Private Circulation Only

We at CDS are technically completing 2 years of existence in March 2001. It has been well said that change is the only constant and we need to constantly plan for change. Advances in technology, communication and computing are enhancing the speed of change. Looking back, these 2 years have been very challenging for us at CDS. Challenging - to overcome the impediments created by all and sundry to prevent us from commencing operations. In fact, we have completed only one year of actual operations.

CDS has achieved substantial progress during last twelve months; the number of registered Depository Participants has increased to 153 in 120 locations spread across 66 cities / towns in the country, who are providing on-line depository services to investors.

Similarly, the number of issuers' securities admitted into CDS has increased to 2580. CDS also commenced the admission of debt instruments like debentures and bonds issued by various companies. CDS presently has 324 debt instruments of 19 issuer companies admitted for demat.

The settlement volumes handled through CDS have likewise grown substantially. The widespread dispersion and the recognition by more and more clearing members of CDS's superior service was responsible for the average settlement volumes vaulting from 11.23 crore securities per week in July, 2000 to 24.63 crore securities in the settlement cycle of February 19 to 24, 2001. I wish to personally thank each one of you for your support.

Further, the Reserve Bank of India has permitted CDS to open a Current account and SGL I & II accounts, to facilitate retail trading of Government securities in the demat form. World-over, the size of the debt market is much larger than that of equity and I strongly believe that the commencement of trading in debt securities, shortly, on the BSE and NSE by retail investors, will increase the settlement volumes on CDS exponentially.

In a short span of time, CDS has also attained membership of The Asia Pacific Central Securities Depository Group (ACG). The ACG is an organisation that facilitates exchange of information and promotes mutual assistance among member depositories and clearing organisations in the Asia-Pacific region. Membership of this organisation is expected to help CDS in enhancing its knowledge base and contributing to the development of other member organisations in the fields of international best practices, settlement risk management, cross border linkage and technological development. This should help us capture a big chunk of FII business through their custodians.

We, at CDS, have been able to achieve all this due to the encouragement and unstinted support received from all our associates and investors. I look forward to your continued support.

M G Damani
Chairman & Managing Director

The securities lying in the pool account beyond the above period would not be eligible for delivery in the subsequent settlement(s) and would also not be eligible for pledging or stock lending purpose, until the same is credited to the beneficiary accounts.

The securities lying in the pool account beyond 6 calendar days would attract a penalty at the rate of 6 basis point per week on the value of securities. To the extent of instruction not received, the securities shall be credited to the CM pool account.

With effect from April 2, 2001, the time limit of 6 calendar days after the pay-out day for transferring the balances to the beneficiary accounts of clients shall be reduced to 4 calendar days or 2 working days, whichever is later. The penal provisions mentioned above shall be applicable on the balances lying in the pool account after this period.
