Infoline Update 16

CDSL today : (as of 31.03.2003)

Security type	Mar 2003	Mar 2002
Equity	4628	4293
Debt	2452	1208
Commercial Paper	101	103
Mutual Fund Units	20	8
Government Securities	102	—

Securities Admitted

As on March 31, 2003, the equity of 4628 companies has been admitted into CDSL. Further, CDSL has also admitted 2452 debt instruments, like debentures and bonds, for dematerialisation.

Depository Participants

As on March 31, 2003 CDSL has 189 DPs offering live depository services in 110 cities across 414 locations in the country.

	Mar 2003	Mar 2002
Depository Participants	189	165
Branch-DPs	237	198
Cities	110	98
Locations	414	346

Securities in CDSL	Mar 2003	Mar 2002
Quantity (Crore)	821	482
Value (Rs. in Crore)	36164	24337

Dematerialisation

Over the last one year, the demat volume and value have increased by 70.33% and 48.59% respectively.

Settlement

Over the last one year, the settlement volume has increased by 5.89%.

Settlement	Mar 2003	Mar 2002
Quantity (Crore)	26.42	24.95
Value (Rs. in Crore)	2415	2776

What's New?

CDSL's unique direct pay-in facility

CDSL's unique facility for pay-in of securities from the demat account of investors directly to the Clearing House for settlement of trades has been very popular among investors dealing on BSE. This unique direct pay-in facility, which is offered only by CDSL, has now been extended to investors trading on NSE, OTCEI, DSE and CSE as well.

The direct pay-in facility, based on the principles of straight-through processing (STP), offers a host of benefits to investors and brokers. Under this facility, brokers can ask his clients to deliver securities from their demat accounts directly to the Clearing House (CH) / Clearing Corporation (CC) to ensure delivery of securities within the strict time schedule prescribed

under the recently introduced T+2 settlement cycle. This CDSL facility comes to investors / CMs without any additional cost.

The new facility has built in feature to pick up the securities which are available in the demat account of the investor at the time of pay-in, even if the quantity at that time is found to be lesser than the required quantity in case of insufficient balances. This avoids failure of the trade for the full quantity. **Thus, by using this unique facility being offered only by CDSL, the possibility of incurring loss, if any, on account of short delivery could be minimized to the extent of available quantity.** The BO level direct pay-in is beneficial to all intermediaries as explained below:

Beneficial Owners / Sub-brokers	<ul style="list-style-type: none"> ∇ BOs can give instructions to set-up "BO obligation confirmations" on the "T" day itself, even by taking into account the expected inflow of securities in their accounts. Since balances are picked up just before the deadline for pay-in, even those securities which are received in the accounts at the last minute could be utilized for the pay-in. ∇ This unique facility being offered only by CDSL permits part pay-ins also, as against the normal settlement instruction where instructions fail in the event of account having securities lesser than the delivery instruction. Illustratively, where a BO issues instruction for pay-in of 500 shares of a company, but, at pay-in time his demat account has only 400 shares of that company, then the available quantity i.e. 400 shares will be picked up for the pay-in and the shortage related loss, if any, to be borne by the CM/client will stand reduced to 100 shares only.
Clearing Members	<ul style="list-style-type: none"> ∇ The new facility has an in-built mechanism to ensure "settlement number wise delivery". This enables CMs to exercise proper control and reconciliation of pay-in obligations. ∇ Securities from the BO accounts are transferred at the time of pay-in to their respective CM's account from where they are automatically picked up by the CC/CH for settlement wise pay-in. ∇ Timely reports giving details of the securities for which BO obligations have been entered together with probable failures / shortages and the final status of instructions (i.e. the pay-in shortage, if any) can be obtained by CMs from their DPs or by accessing CDSL's internet based service "easi".

Besides the above, it may be recalled that the CDSL system has other convenient pay-in options like auto pay-in and early pay-in to suit requirements of all

market players like CMs, sub-brokers and investors. These are described below:

Normal Pay-in or Auto Pay-in	When BOs selling securities, issue instructions for transfer of securities to their CMs either directly or through their sub-broker, securities are automatically picked up by CDSL for settlement obligations from the CM accounts of all exchanges other than BSE. For BSE, the auto pay-in facility would be available to those BSE CMs who have opted for this facility (i.e. the CM informs BOISL, the CH of BSE, his intent to use the auto pay-in facility).
Early pay-in	Under this module, BOs/CMs can issue instructions to deliver securities directly to the CC/CH, immediately after execution of the order indicating the particular settlement number. The securities will be utilized to settle delivery obligations against that particular settlement only and at the same time the BO/CM can save on margin payment. Unlike in the auto pay-in module, where securities available in the CMs account would be automatically picked up for any settlement, which may take place after the execution of the instructions, in the early pay-in module they are utilized only towards that settlement which is indicated in the instruction slip.

Settlement Number For BSE Settlements

While issuing the delivery instructions, BOs/CMs are required to furnish settlement ID, which besides giving the settlement number also furnishes the year of the trade. The financial year of all stock exchanges commences from 1st April each year and, therefore, the settlement ID should indicate the year details of the financial year, i.e. 2003-04 for trades being done now. However, in the CDSL system, in case of online trades done on BSE, the calendar year particulars were being given, i.e. 2002 for the financial year 2002-03. With a view to bring in uniformity in this regard, CDSL has modified its system and now the year to be indicated in the settlement ID for trades on all exchanges, including BSE, will be the financial year. Thus, the settlement ID number for all online trades done on any exchange during this year will have 2003-04 as the year and so on.

Closure of accounts with pending demat

Issuers/RTAs are required to confirm dematerialisation requests within 21 days. However, there are certain companies, which take time beyond this prescribed period. CDSL, besides sending reminders to such companies, publishes on its website www.cdslindia.com the names of 200 top companies, which report pending demat requests for more than 30 days. It has been brought to the notice of CDSL that due to this delay some BOs who are desirous of closing their demat account for any reason cannot do so and are forced to maintain the account till all pending dematerialisation requests are confirmed. To mitigate this hardship, the following course of action is suggested to BOs/DPs:

1. BO may write a letter to the issuer and RTA, (with a copy marked to the DP) requesting the issuer/RTA to reject his pending dematerialisation request and issue a fresh physical certificate (rematerialisation) for the underlying security.
2. DP may attach to the BOs request a copy of the dematerialisation request (generated from the CDSL system) and forward the same to the issuer/RTA after affixing his signature and stamp.
3. Once the DP is informed about the rejection of the pending dematerialisation request/s by the issuer/s or RTA/s, he may close the account with the 'nil' balance.

Straight Through Processing (STP)

The shortening of settlement cycles to 'T+2' has made it necessary to automate the entire process of issuing contract notes and obtaining confirmation from fund managers and custodians. CDSL's STP initiative for this purpose is undergoing testing and is expected to be launched shortly.

easi to become easiest

CDSL is in the advanced stage of establishing a common platform for issuance of delivery instructions through its internet facility "**electronic access to securities information & execution of secure transactions**" - (**easiest**). The "**easiest**" facility will provide an anytime anywhere kind of freedom to investors to issue delivery instructions. Besides enabling them to meet the strict deadlines of delivery set under the T+2 regime, it will also obviate the need of their visiting DP offices to obtain instruction slips and to lodge them with the DP.
