RECEIPT OF DIS BOOKLETS

BOs having an online trading account normally give a Power of Attorney (POA) in favour of a CM for execution of delivery instructions pertaining to their trades. Likewise, BOs having a PMS account would have given a POA in favour of a PMS manager or would have executed a PMS agreement allowing the PMS manager to manage the portfolio of securities in their demat account. At the time of account opening, a Delivery Instruction Slip (DIS) booklet is given to the BO. However, BOs having an online trading account or having a PMS account seldom use the DIS. Thus as a risk mitigation measure, CDSL has permitted Depository Participant (DPs) to forward the DIS booklet after completion of the account opening procedure or at any later date as requested by such BOs. A written consent shall be given by the BO to the DP in case he foregoes the right to receive the DIS and prefers to receive it later. For further details, kindly refer to CDSL [communiqué no. 3303](#).

ADDITIONAL FEATURES IN PLEDGE MODULE

Pledge is a facility by which investors take loan against securities. The investor who takes the loan is called the 'Pledgor' and the entity granting the loan against securities is called the 'Pledgee'.

CDSL is pleased to announce that new features will be added to the Pledge module which are listed below:

1. Pledge processing flag in the account opening module: Pledgee will be given a facility to give a 'Standing Instruction' for accepting pledge automatically without giving a pledge acceptance request to the DP.
2. Pledge setup up with future date as execution date: A facility of executing the pledge on a future date will be made available to the pledgor. A new field, 'Execution Date', has been introduced as an optional field in the common upload format and in the Pledge request setup. The future execution date should not be more than 7 days from the set up date.
3. Pledge set-up in overdue status: Pledgor will be allowed to set up a pledge request even if the balance in the pledgor's account is insufficient. The pledgor's account should be credited before the end of day (EOD) of the execution date failing which the pledge request will be rejected.
4. Corporate Action: Pledge request under overdue status will have different impact due to different type of corporate actions.

5. Pledge cancellation: If pledge requests remain unexercised for 15 days from the set up date, the same will be cancelled during EOD.

6. Reports: Formats of various reports have been revised in order to include the above changes.
