CDSL'S ONLINE TUTORIAL FOR NISM – SERIES VI - DOCE

SEBI vide its notification dated March 29, 2011 had made it mandatory to pass NISM Series VI – Depository Operations Certification Examination (DOCE) for Depository Participant (DP) officials that are engaged in the below-mentioned activities:

- Dealing or interacting with clients,
- Dealing with securities of clients,
- Handling redressal of investor grievances,
- Internal control or risk management,
- Activities having a bearing on operational risk, or
- Maintenance of books and records pertaining to the above activities

In this regard, CDSL had conducted various training programs across India to facilitate these officials successfully clear the NISM – VI – DOCE examination. With a view to offer easy access to the afore-mentioned training, CDSL has arranged an Audio-Visual Tutorial, which covers the entire syllabus of DOCE. The audio visual has been uploaded on “www.Youtube.com” and can be accessed using the internet. DP officials can also view Chapter wise links of the tutorial by referring to CDSL communiqué no. 3756.

UID DETAILS IN CDSL SYSTEM

CDSL is pleased to inform that it has made a provision to capture UID details of individual account holder(s) in the CDSL system. This facility has been released on May 31, 2013. BOs desiring to link their UID to their demat account should submit an account modification form to their DP.

For more details and file formats, kindly refer CDSL communiqué no. 3584 and 3688

PLEDGE SET UP FOR FUTURE DATE

Pledging is a facility through which a Pledgor can avail an advance by offering his securities as collateral to the pledgee. CDSL is pleased to offer a facility whereby the Pledgor BO can submit a pledge request with a future date as the execution date. The pledge request can be set up in case of nil/insufficient balances in the pledgor's demat account. On the execution date, if the pledged securities are not blocked for settlement or they have not been frozen or already pledged then the pledgee DP can access the pledge sequence number.

Further, the pledgee BO can give a standing instruction for accepting a pledge request to its DP to avoid submission of a pledge request form every time.

BO-ISIN FREEZE SET UP FOR FUTURE DATE

At present, a BO can freeze his entire account or an ISIN in his account or partial quantity of an ISIN in his account for current as well as future date for debit/credit/ or both.

CDSL is pleased to introduce a facility whereby a BO will be able to freeze full quantity of an ISIN for current or future date for debits / credits / or both, even if the BO does not hold securities pertaining to the said ISIN at any point of time from the date of account opening till the time of initiating the said freeze. This will help BOs mitigate anticipated risks pertaining to future credits of securities in the demat account by freezing them, beforehand.

RAJIV GANDHI EQUITY SAVINGS SCHEME (RGESS)

The Rajiv Gandhi Equity Savings Scheme, 2012, has been introduced by the Government of India with an objective to encourage flow of savings of the small investors in domestic capital market. Through this scheme, new retail investors can save tax by opening a demat account and investing in eligible securities under RGESS.

BOs opening an account under RGESS category should provide Annexure B to their DP giving details of RGESS eligible securities which should be excluded from his RGESS portfolio, within one month from the date of purchase / allotment of that security through corporate action / initial public offer. CDSL has now provided an option to the DPs for online entry / upload of such details given in form B, in the CDSL system. A separate report will be made available to the DPs about credits of RGESS eligible securities received in BO accounts designated for RGESS but not considered for freezing due to various reasons. For further details and file formats, kindly refer CDSL communiqué no. 3708.
