Sub: Delay in settlement activities.

Dear Madam/Sir,

Earlier today (Friday, November 18, 2022), Central Depository Services (India) Limited (CDSL's) detected malware in few of its internal machines.

As a matter of abundant caution, the Company immediately isolated the machines and disconnected itself from other constituents of the capital market.

As per initial findings, there is no reason to believe that any confidential information or the investor data has been compromised.

The CDSL team has reported the incident to the relevant authorities and is working with its cyber security advisors to analyse the impact.

Resolution of the incident is in process, subsequent to which settlement activities would be completed.

This is for your information and records.

Thanking you,
Yours faithfully,

For Central Depository Services (India) Limited
