CDSL/OPS/DP/SYSTEM/2021/301

July 09, 2021

### RELEASE OF NEW MODULE FOR MODULES MIGRATED ON NEW TECHNOLOGY

DPs are aware that CDSL is migrating the existing modules to new technology. Modules like DBA, Pledge & Un-pledge, Demat – Destat, DOTS, SISO and Encumbrances are already migrated to new technology.

Currently when DP user logs into the system, they are shown screen with various modules available to the user. Few modules have two icons i.e., one icon for old technology (e.g., Freeze & Unfreeze) and another for new technology with word new suffixed in its name (e.g., Freeze & Unfreeze New).

CDSL is pleased to announce release of a new functionality for new technology modules. After this release all the new technology modules will be removed from the home screen of the user and placed inside the newly introduced module with name as “New Modules”.

DPs are requested to make a note of the following important points:

1. This “New Modules” icon will be available to all user classes by default.
2. Modules inside the New modules will be as per the access rights of each user class.
3. User can open multiple new technology modules simultaneously.
4. Each new technology module will open in new window.
5. Modules like DBA, Pledge & Un-pledge, Demat – Destat, DOTS, SISO and Encumbrances will not be available on home screen of user. These modules will be present inside the New Modules only.

DPs are requested to note that the said functionality is scheduled for release on Friday, July 09, 2021.
