RELEASE OF ADDITIONAL MODULE ON HOME SCREEN NAMED AS REPORT DOWNLOAD

DPs are advised to note that we are in process of segregating Report module related to Setup and Downloads of reports for which an additional module on home screen named as "Report Download" will be introduced. Under this new Report download module, DPs will be able to only download and manage reports.

DPs are hereby informed that initially for two weeks from the date of live release of "Report Download" module, the existing "Report" module will also work parallel as per existing functionality. After two weeks, Download and Manage buttons will be disabled from the existing "Report" module. It is recommended that all the DP users should start using new "Report Download" module for Downloading and Managing reports. DP's will be in ease of using new "Report Download" module before Download and Manage button from Report module is disabled.

DPs are requested to note that the said functionality is scheduled for release on Friday, September 17, 2021.
