CDSL/OPS/DP/SYSTEM/2022/605

October 18, 2022

REVISED TIMELINE FOR UPGRADATION OF REL-ID CLIENT

DPs are advised to refer to CDSL communique no CDSL/OPS/DP/SYSTEM/2022/220 dated April 20, 2022, regarding “Upgradation REL-ID client software at user end”. Also refer, to the reminder Communique no. CDSL/OPS/DP/SYSTEM/2022/303 dated June 1, 2022 regarding t the “Network configuration for upgradation of REL-ID client”.

CDSL has also informed vide Communique no. CDSL/OPS/DP/SYSTEM/2022/557 dated September 28, 2022, that due to technical reasons, the login through old REL-ID client will be available to the users **till October 20, 2022.**

The new REL-ID client will work with Windows 8 and above. But considering Windows 8 support which will end on January 10, 2023, CDSL informs to use windows 10 Operating system and above. As Windows 7 support ended on January 14, 2020, the new REL-ID will not support Windows 7 Operating System.

Now CDSL has extended the timeline to use the old REL-ID client **till October 31, 2022, only.** Hence, we request to upgrade REL-ID client on CDSL terminals at the DP’s end on or before the mentioned timeline. Further please be informed that there shall be no extensions in this timeline.

Before DPs start installation activity request to refer all old Communiques regarding this subject line and recommend that existing WECDAS machines are updated with latest Operating systems for seamless migration of REL -ID.

Steps to Download new REL ID Application:

- 1) Copy URL in explorer do not click - <https://www.cdslindia.com/footer/help.html>
