NEW URLS FOR APIs AND MIGRATION TO INSTANTANEOUS APIs

DPs are advised to refer to DP Circular no. CDSL/OPS/DP/TECH/2025/525 dated Augst 06, 2025 regarding launching of new URLs for APIs. DPs were advised to use new URLs except for Delayed Margin Pledge API. Due to multiple requests of extension, old URLs were kept active along with new API URLs.

Request you to note that new Early Payin and Margin Pledge API's with instantaneous response are now live along with their respective Inquiry API's. DPs are advised to use the newer efficient version of Early Payin and Margin Pledge API's. Existing versions of Early Payin and Margin Pledge APIs which provides delayed response would be sunset on 31st March 2026.

We are going to sunset old URLs mentioned in the table below on 27th February 2026. Only Delayed Margin Pledge API URL will work till 31st March 2026.

List of API endpoints are given below for ready reference and information.

To facilitate this transition, we kindly request you to update your systems and begin using the new URLs at your earliest convenience. Please make the necessary changes in your application to ensure a smooth transition.

Further note that DPs need to provide their unique DP specific public IP addresses of systems initiating APIs, which are required for configuration at CDSL end. We advised DPs to maintain unique and static public IP addresses for their DP Id/s to enhance the security posture and to avoid disconnection due to common IP address. DP's can provide the information along with intimation of migrating on new URLs to CDSL on dprtasupport@cdslindia.com.
