NETWORK CONFIGURATION FOR UPGRADATION OF REL-ID CLIENT

This with reference to our earlier communicate of the subject "Upgradation REL-ID client software at user end" (Ref. No. CDSL/OPS/RTA/SYSTEM/2022/87 dated April 20, 2022).

CDSL had informed to ensure the necessary network configuration with the help of their network support team only for the CDSL RTA terminals, connected behind the RTA owned firewall to whitelisted specific URL / IP address to run REL-ID program.

For RTAs using Internet:

Existing configuration: The following URL / Public IP addresses and the port have been whitelisted by the network team of RTA at their end.

Public IP address	URL	Port
125.16.3.95	Relidweb.cdslindia.com	443
115.111.25.103		
121.242.210.98		
61.95.148.39		

New additional configuration: The following additional URL / Public IP addresses and the port must be whitelisted with help of their network team at RTA end

Public IP address	URL	Port
125.16.3.94	Relidwebn.cdslindia.com	443
115.111.25.95		
121.242.210.117		
61.95.148.46		

Ensure that DNS (Name to IP) resolution for the above new URL is happening from the client desktop before new REL-ID client application migration.
