Points to be noticed: -

A.) Unfreeze PAN after deletion: -

After the deletion of data during the Trading Window Closure (TWC) period, the issuer is required to manually modify the end date in the portal. The portal does not currently support an automatic unfreezing mechanism.

B.) Switchover Designated Depository: -

Where a request for a change of Designated Depository (DD) is received during an ongoing Trading Window Closure period, the switchover should preferably be effected after the expiry of such Trading Window Closure period.

However, in exceptional circumstances where the switchover is required to be effected during the ongoing Trading Window Closure period, the issuer shall update the trading window closure end date with existing DD & trading window closure start date with new DD and ensure that the existing Trading Window Closure continues seamlessly and without interruption under the new Designated Depository.

The responsibility for ensuring the continued operation of the Trading Window Closure and compliance with the applicable provisions of the SEBI (Prohibition of Insider Trading) Regulations, 2015 shall remain with the issuer.
